Description and Remarks ..Sound talk by David E. Lilienthal at desk "The Atomic Energy Comm. is now opening a new and enlarged isotope processing area at the Oak Ridge National Laboratory in Tennessee. There's lots of trouble in this world these days, and some of it has to do with the atom. But there are many bright spots too -- and one of the brightest is the growing usefulness of atomic materials--radioisotopes--for humanitarian purposes. So, as I leave the Atomic Energy Comm. I feel greatly heartened and encouraged that now we are equipped to meet the rapidly growing need and use of radioisotopes--the atoms for peace.
